h.g. brunner ltd ~ a division of **autotec marketing**

h.g. brunner is a sales, marketing and engineering consultancy for some of Europe's leading manufacturers in their respective fields. Our contacts with our customer base are extensive, with many leading companies buying from one or more principals.

Established in 1898, **h.g. brunner** has been involved in the supply of high quality precision components and mechatronic assemblies to the scientific and instrumentation sectors for over 100 years.

Premier Tooling ~ a division of **autotec marketing**

Established in 2004, **Premier Tooling** specialises in the sourcing, project management and supply of precision moulds and maintenance parts to a diverse European customer base. The production of our sourced tooling is project managed by our local team who work closely with the tool shops that we have rigorously selected in several regions across Eastern China
